

Creativity has always been a passion for me!

My life has evolved from being an Air Force “brat” to a teacher of the hearing impaired to a present day artist and enjoying every minute! Creating art makes me happy!

After retiring from teaching, I was able to follow my artistic passion and took a pastel class. I was hooked! I love the pure pigment and vibrancy! From there, I have been drawn to acrylics and encaustics. Art is an adventure of learning and exploring new and exciting things.

Moreover, my love for animals has led me to painting animals and pet portraits. I am also inspired by the beautiful Texas Hill Country, where I reside, and my home away from home, in North Captiva Island, Fla. , with the beautiful sunsets , wildlife and ocean views.

My art is shown at the River Art Gallery in La Villita , San Antonio, North Captiva Island’s Barnacle Phil’s, Boerne Professional Artists , Texas Pastel Society Shows, as well as local shows and venues.
